**FOURTH SUPPLEMENTAL SUBMISSION IN SUPPORT OF THE RENEWED
AND RESTATED MOTION OF WILLIAM H. MALOOF TO REOPEN
EXAMINER'S INVESTIGATION AND FOR
SUBSTITUTE EXAMINER**

**“A Passion for Control:
How to Hide Leased Tanks in Plain Sight”**

1.) Having disabled the database, having destroyed the hard copy library of customer accounts, Level Propane's managers here arrange to manipulate the customer count (see Exhibit "A".) Severed from the tank serial numbers, the record of tanks Level Propane leased to its customers, the customer accounts can be sieved through whatever screen the managers require to bring down the customer count to the lowest plausible number possible. John Verbos, as obliging as ever, who disabled the ADD database a few days before, now endeavors with Eaglerock to drive the apparent value of Level Propane down still further with this transparent manipulation of data. Mark Williams is there to cheer on and direct Mr. Verbos's efforts.

2.) Once more, misdeeds compound: This manipulation served to further mask the identity and location of the leased tanks by *shrinking the customer count below the actual*

number of leased tanks while stripping the company of customers to make it appear a tattered shadow of the former enterprise.

Wherefore, having further supported his Renewed and Restated Motion to Reopen Examiner's Investigation and for Substitute Examiner, the Movant prays that it be granted.

Respectfully Submitted,

Mark:

Attached please find the customer count as a function of past due age
analysis we discussed last night.
Let me know what you think.

Thanks, John
